# ANSHU GUPTA

**Software Development Engineer in Test | Kolkata, India**

+91 9330988121 | ianshuguptaofficial@gmail.com | LinkedIn | Profile

## PROFESSIONAL PROFILE

**Quality Assurance Engineer / SDET with 3+ years** of experience in end-to-end manual testing, UI/API validation, and test automation for SaaS and enterprise applications. Hands-on experience **testing CRM, Portfolio Engine, Role-Based Access Control (RBAC), and AI-powered applications**. Skilled in test planning, regression testing, defect management, and building automation frameworks using **Playwright, Selenium, Java, TypeScript/JavaScript, and REST Assured**, with CI/CD integration.

## PROFESSIONAL EXPERIENCE

**QA Engineer | VectorShift.ai** (Oct 2025 – Present)

- Designed and developed a scalable end-to-end automation framework from scratch **using Playwright with TypeScript/JavaScript** for cross-browser testing.
- Hands-on experience in end-to-end functional, integration, and regression testing of **CRM, Portfolio Engine, Role-Based Access Control (RBAC), and Meeting Recorder** applications, ensuring feature reliability, data accuracy
- Validated AI-driven workflows, **chatbot interactions, API integrations, knowledge-base accuracy**, and dynamic data tables through end-to-end testing.
- Managed automated test execution and reporting through **TeamCity and GitHub Actions** with YAML-based CI workflows.
- Performed functional, integration, regression, and exploratory testing; documented defects and collaborated with engineering teams.

**Senior Analyst | Capgemini Technology Services India Limited** (Oct 2022 – Apr 2024)

- Performed functional UI and API testing for an insurance-domain portal using **Selenium with Java in BBD**
- Automated **80% of API test cases using Java, REST Assured, and TestNG**, significantly reducing manual testing effort.
- Automated **digital-signature workflows** across insurance forms, reducing manual verification time by approximately **60%**.
- Improved automated test coverage and managed defect tracking, test execution, and reporting using **Jira and qTest.**

**Senior Analyst Intern | Capgemini Technology Services India Limited** (Feb 2022 – Apr 2022)

- Created BDD test scripts and test cases for the Payback website and produced test execution reports.

**Java Developer Intern | Cognizant Technology Solutions** (May 2021 – Sep 2021)

- Worked on Java application development fundamentals including OOP, JDBC, exception handling, JUnit, threading, and collections.

## TECHNICAL SKILLS

**Programming:** Java, Python, C, JavaScript, TypeScript, HTML, CSS

**Testing:** Manual & Automation Testing, Functional & Exploratory Testing, UI/API Testing, Test Design & Defect Management

**Tools & Frameworks:** Playwright, Selenium, Cucumber, REST Assured, Postman, TestNG, Jira, SQL, Git, TeamCity, GitHub Actions

## EDUCATION

B.Tech (Hons.), Computer Science & Engineering | University of Engineering and Management | 2018–2022 | 88.22%

Intermediate (Class XII), Computer Science | Purwanchal Vidyamandir | 2018 | 90%

High School (Class X), Science | Purwanchal Vidyamandir | 2016 | 93.4%

## SCHOLASTIC ACHIEVEMENTS

- Academic Scholarship, University of Engineering and Management (2018–2022).
- Ranked 5th in the Computer Science & Engineering batch (2018–2019).
- Solved 500+ coding problems across HackerRank, CodeChef, and LeetCode (2021–2024).

## CERTIFICATIONS

- Automation Engineer Level II Certification
- API Testing Postman — Coursera
- Elite Certification in Soft Skills and Personality
- Agile Software Development — Coursera
